DXpedition News

Andamans - VU7 Word from India says that **VU4APR** and **VU4NRO** will be active from the Andamans (AS-01) Feb. 20-31. QSL manager will be VU2APR, and VU2RBI is leading the group. Sunrise 0000Z, sunset 1150Z. Try 40 meters at 01-0200Z and again at 12-1300Z, and 20 meters 01-0300Z.

Ogasawara - JD JA2NQG will be /JD1 from Chichijima Island (AS-31) Mar. 27-29, including some of CQ WPX SSB. Watch 7007 and 7028, 3508, 3528, 14028, 21028, and some SSB as well. 160 meters transmit on 1908, listen 1805, 1825-30. QSL via JH1LKH or JA bureau. Sunrise 2025Z, sunset 0840Z.

St. Peter and Paul Rocks - PY0 Ron PY1BVY sends undated information about his Feb. 20-28 P/P Rocks (SA-14) trip. Calls will be **ZY0SA** on SSB (PY1ZT Paul op.) and **ZY0SB** on CW (PY1BVY Ron op.) Watch 1832, 3500, 3780, 7000, 7080, 14010, 14220, 21010, 21180, 28010, and 28580. Split frequency operation 10-15 kHz up, except on 160. QSL PY1BVY, Box 1502, 24000 Niterói, Brazil.

Libya - 5A SP6RT Hubert Trzaska continues his activity as **5A0A** from Benghazi, Libya. QRP CW on 21005 and 14005. QSL via SP6BZ. SP6RT will be in Zurich Mar 3-5 representing IARU at a conference.

Tromelin - FR/T Yoland **FR5AI** confirms that he will be /T (AF-31) Mar 3-Apr 3, with a dipole and 100 wts. Watch 20 and 15 around 1200Z and 1530-2200Z, both CW and SSB. Sunrise 0230, sunset 1430Z. QSL address in I365.

Antarctica - LU/Z LU6UO/Z has been very active on 40 meter CW, especially 04-0700Z (and as early as 0130Z.) He started at Maramibio Base on Snow Hill Is. (AN-13), which counts as Antarctica, but is expected to move on to Deception base in the South Shetlands (AN-10) soon. Ask for his QTH. No word on the CX0XY group yet.

Belize - V31 Gary WB8YUC reports his Belize call is **V31JQ** (see I373). Frequencies will be 1845, 3795, 7185, 14200, 21305, and 28505. QSL WB8YUC.

Svalbard - JW SP5EXA will return to Spitsbergen (EU-26) June-August 1987. He was very active from there last year. His plans for a Bouvet DXpedition fell through on money problems. He's still looking at both 3Y locations for next year!

Yasme DXpedition Stalled Iris Colvin W6QL is in the Nawaloka Hospital in Columbo, Sri Lanka, recovering from hip surgery. Iris broke her hip while in the Maldives, and flew to Sri Lanka to have two pins inserted in her hip. She and Lloyd would like to continue their trip as soon as she is moving around, but they'll be in 4S-land for a while. I'm sure Iris would appreciate cards and letters; she was in Room 324.

Shortly Noted

- **3Y No Good for Golden Jubilee** Don Search W3AZD says that Peter I contacts do **not** count for DXCC Golden Jubilee, as no 3Y cards have yet been submitted to the ARRL for DXCC credit. Work another one.
- **FT8XA** is due on soon.
- **VP8BFM** in the Falklands is very active, including 21020 17-1900Z.
- **7J1ACH** on 14226 at 2300Z.
- **TZ6VV** Eric 14183 17-1900Z for one year.
- **5V7WD** skeds his QSL manager WB4LFM Monday at 2100Z on 14165.
- **KC6MR** was operated by JJ1TZK; QSL CBA.

RTTY News

- A few lucky JAs snagged **3Y1EE** on RTTY. No reports of US contacts yet. QSL LA6VM.
- Again only a handful of RTTY DXers caught **VP8AQT** from South Georgia: 16, to be exact, including 5 Stateside hams.

Low Band News

- **KH9AC** 1827 at 0700Z often; QSL WK6T.
- **KN4BPL/KH3** on Johnson likes to work US stations on 1842-46 SSB daily at 0600Z, usually calling the stations he hears.
- **FT8WA** continues to haunt 7005 at 23-0100Z.
- **3B8CF** likes 3507 01-0200Z.
- **KN4BPL/KH3** 3800 often.

— **Chod Harris VP2ML Editor**

Propagation Watch

Another long string of High Normal forecasts! Propagation should continue very good on the lower bands, with some north-south activity on 15 meters. (The 3Y operation convinced many DXers to listen to 15, with their beams pointed South; they worked a lot of other DX in that direction as well as the 3Y!) Feb. 21-23 should be an especially good period, which bodes well for ARRL CW. [Let's hope we're not as far off base on this contest forecast as we were on CQWW SSB! -ed.]

The very low absorption, especially over the poles, has produced some amazing world-wide propagation. A West Coast reporter noted that North EU, Africa, JA, VK and South American were all coming through at the same time on 20. He worked 9Q and 9V only minutes apart.

That low polar absorption (which at times was lower than mid-latitude absorption; very rare!) means that 160 meters is humming with rare DX. An East Coast Top Bander logged both EI and ZL at 0730Z.

What's StratWarm?

Dear Chod:

What does WWV mean by "StratWarm" alert in their 18-minute-after-the-hour propagation report? It seems to wipe out the lower bands here in the north. -W8UVZ

Dear George:

StratWarm alert means that NOAA in Boulder CO has received reports of **strato**spheric **warm**ings in the high latitude regions of the winter hemisphere. Such warmings are associated with gross distortions of the normal winter polar air circulation. As the ion-laden stratosphere mixes, absorption increases in the polar regions, and the low bands are wiped out in high latitudes. Solution? Move to Montserrat! -VP2ML

QSL Help Wanted

- **EA9CE** CQWW CW Nov 1986 for W4VQ
- **XW8CO** 1973 for N1GL
- **Z21BA** and **KC6JC** for K5GL
- **HL9OS, 5T5QQ,** and **FM5DT** for WF5E
- **LA7Q** CQWW SSB Oct 86, and **F5II/FY** Feb 85 for WA6SLO
- and **PK4LB** 1960 for W1DGJ

QSL Help Offered

- **ZB2I** was Edwin Wills, 9 Naples Hospital Road, Gilbraltar, and **7G1A** is via OK1ACO
- Per Issue 370, **TR8JL** is actually **TR8JLD**, Jean-Louis Domange, Box 484, Libreville, Gabon.
- and **DJ6SI** has all the logs and cards from his numberous operations: 5X, 5Z, C5, TJ, FR0, and many more. QSL Baldur Drobnica, Zedernweg 6, D-5010 Bergheim FRG.

Peter I DXpedition

Dear Chod:

I fully agree with your comments in I372 about the performance of both 3Y operators: beyond criticism and deserving of applause. However, the same does not hold true for the multitudes, especially on 20 meters. In 40 years I have not seen such displays of flagrant out-of-band operation, not knowing how to use one's rig, stupid commentary, etc. What a shame! -KB1HC

Dear Chod:

The 3Y Peter I Island operation proved three things for sure:

1. You don't need to work off a list to be successful,

2. Furthermore, nonlist operations have higher QSO/hour rates,

3. And split frequency operation is alive and well. Why don't others use it, especially on SSB?

It's obvious that many operators, especially on SSB, don't know how to work split frequency on their rigs, to judge form all the USA stations that operated outside the USA phone band and called the 3Y right on his freq. Many stations weren't hearing well and called continuously, even while the 3Y was transmitting. Unfortunately, many of them were Honor Roll members! Those who complained that they couldn't compete with their KW and a 3-el yagi should quit DXing and complaining and learn how to work DX without a list operation! - W1JR

Dear Chod:

With the 3Y operation, you cannot imagine the quantity of RF being pumped south. It;s like the rest of the world has come alive. Generally the North American ham population doesn't seam south, especially during contests when they are working Europeans and JAs. Having the 3Y boys to the south of us is most interesting. -K5KG/LU
